

# devolo WiFi 6 Repeater 3000

## Technical Specifications

## Simply convenient: Getting started with the Wi-Fi 6 home network

The devolo WiFi 6 Repeater 3000 is the convenient entry into the mesh Wi-Fi world. Thanks to Wi-Fi 6, your customers enjoy fast Internet at up to 3000 Mbps.

### Wi-Fi Features

- **OFDMA & Mesh Wi-Fi 6**  
Technical features such as OFDMA, Access Point Steering, bidirectional Multi-User MIMO, Airtime Fairness, roaming, etc. enable seamless mesh Wi-Fi coverage.
- **Crossband Repeating**  
Better transmission thanks to the optimal use of both frequency bands (2.4 GHz + 5 GHz). Concurrent Dualband and WPA3 encryption round out the features.
- **Access Point Mode**  
With direct connection to the router via Ethernet cable, the repeater can also be used as a full-featured dualband Access Point incl. Multi-SSID.
- **Wi-Fi Clone**  
SSID and Wi-Fi password are synchronised with the router via WPS button.
- **Beamforming / antenna orientation**  
The Wi-Fi signal is optimally aligned with all mobile devices, ensuring a high-performance connection.

### Additional Features

- **Durable and reliable**  
devolo develops benchmark products for millions of worldwide customers – and gives you a 3-year warranty!
- **devolo Home Network App**  
Easy setup with step-by-step instructions.
- **Firmware Management\***  
devolo offers network operators its proprietary firmware management solution as a service for all devolo standard retail products.
- **Faster roll-out thanks to TR-069 support for retail products\***  
devolo now also offers the TR-069 option for standard retail repeaters. This can significantly reduce the time-to-market for large-scale roll-outs. When the repeater is set up for the first time, it is updated to the ISP-specific TR-069 specification.
- **Improved service thanks to TR-069 remote management\***  
For perfect and cost-effective customer support: from comprehensive ad hoc troubleshooting, Big Data and remote firmware updates to local changes to repeater settings – countless options and functions are available.

## Technical Data

<b>Standards</b>	IEEE 802.3, IEEE 802.3u, IEEE 802.3ab, IEEE 802.3x, IEEE 802.3az IEEE 802.11 a, b, g, n, ac, ax, k, v, r (2,4/ 5 GHz concurrent)
<b>Transmission speeds &amp; methods</b>	Wi-Fi 2402 (Mbps; 2x2 MIMO; 5 GHz), Wi-Fi 574 (Mbps; 2x2 MIMO; 2,4 GHz) Ethernet 10/100/1000 (Mbps)
<b>Wi-Fi technology</b>	OFDMA, Multi-User MIMO
<b>Modulation • carrier</b>	Wi-Fi DSSS (IEEE 802.11b) • Wi-Fi OFDM (IEEE 802.11a, g, n, ac) • Wi-Fi 32
<b>Range (in m)</b>	Wi-Fi: 300
<b>Security</b>	WPA/WPA2/WPA3 Personal, WPS PBC
<b>LEDs</b>	Status / Signal strength display
<b>Buttons</b>	ADD (WPS), Reset (Factory Default)
<b>Connector • countries</b>	Type C (CEE 7/16), Type G (BS1363)
<b>Device port</b>	1 x Ethernet RJ45
<b>Power consumption</b>	Maximum: 9,7 W, typical: 6,1 W
<b>Power supply</b>	100–240 V, 50/60 Hz
<b>Temperature</b>	-25°C to 70°C (storage), 0°C to 40°C (operating)
<b>Dimensions and weight</b>	71 x 149 x 45 mm (height x width x depth, without plug). Weight: 300g
<b>Ambient conditions</b>	10–90 % humidity (non-condensing)
<b>Certification</b>	CE Class B (EU, CH, NO)
<b>Service features</b>	<ul style="list-style-type: none"> <li>- Data prioritisation for quality assurance of real time applications (e.g. VoIP or IPTV)</li> <li>- FEC (Forward Error Correction) and retransmissions</li> <li>- 4 priority levels</li> <li>- Priority levels can be adapted individually for the application (depending on the project)</li> </ul>
<b>devolo managed Services</b>	Managed firmware update
